Catalogues, on fine tinted paper, wide margin, will be ready for distribution about the first of August.

To those acquainted with the character of the "Fewsmith Cabinet" it is needless to give details; but, as many of our patrons at a distance would like to obtain a general knowledge of its contents, we will give a brief outline of the interesting features and refer to the catalogue for full particulars.

This Cabinet embraces nearly a full line of American Silver and Copper coinage, including a number of fine and rare Colonial Pieces; nearly a complete set of United States Pattern Pieces; a very fine set of United States Cents, including many varieties, with but few exceptions, in uncirculated condition; Foreign Silver and Copper Coins; Silver and Bronze Medals, including a set of French Silver Medals, in proof condition; a complete set of United States Half Cents; a collection of two thousand Store or Business Cards, in the finest condition; Tokens; Ancient Coins and a full line of American Medals, including many rare pieces. C A R D.

Owing to the large number of pieces in the *Fewsmith Cabinet*, and our limit of three thousand lots, we have been compelled to arrange many fine and scarce medals, Washingtons, Politicals, Store Cards, etc., in lots, and would particularly recommend buyers to examine the same.

Many pieces of rarity and remarkable interest have been briefly catalogued in consequence of the absence of the former owner, who alone was capable of giving the full particulars connected with the pieces.

The catalogue is entirely composed of the collection known as the *Fewsmith Cabinet*, without reservation or addition.

 60,00-1559. The celebrated Gen. Washington Cent described by Mr.
 Fewsmith as follows: "Obv., legend, 'GEN. WASHINGTON;' bust, facing right; hair in knot or queue; bust in military

 to right, having open beak, right talon grasping an olive
 branch; in left talon, thunderbolts; 13 stars surrounding
 head of eagle; date, 1791; the whole piece is in fair con-
 dition." We would add to Mr. Fewsmith's remarks that
 obverse and reverse are distinct in designs and legends,
 but the date is not distinct in the last two figures, and we
 believe the date to be 1785 from the fact that Mickley's
unique Confederatio 1785, which sold for \$160 in the
 Mickley sale, has the same obverse, was struck by the
 same die and is the same diameter, viz.: size 18, or same
 as the 1791 Washington Cents; this piece has been exam-
 ined by various collectors in Boston, New York and
 Philadelphia and pronounced a genuine and *unique* piece.
